PROFILE

I am a Computer Systems Engineer with 3+ years of experience in web development and design, who has developed personal products and for enterprise clients from Mexico and United States. I usually work with custom projects specific to the business needs of a client, anything from Web Applications (Frontend / Backend), Mobile Apps, Database / Server Management, Web Deployment, Graphic Design and Video Production.

EXPERIENCE

WEB DEVELOPER
CONTROLLA · FULL TIME / DEC 2018 - PRESENT
Designed and coded landing pages, worked on specific custom CRM and ERP systems, mobile apps on flutter, REST API usage, synchronized a COMPAQ local database through an electron client to store in the cloud, created an interactive map for house selling, web deployment, database managment.

WEB DEVELOPER INTERN
